ANNUAL REPORT

We recommend the sum of \$1,265.00 be appropriated and raised for Construction of Water and Sewer on Malloy Lands, Upper Main Street, but that this sum not be used until streets are laid out and accepted by the Selectmen and work started on new residences.

We recommend that a Recreation Committee be appointed to investigate and formulate plans for the development of recreational projects, such as Swimming Pools, etc., and report at the next Town Meeting, and that the sum of \$500.00 be appropriated and raised for this purpose.

It is evident that something should be done to increase our Water Supply and for this purpose we have recommended the sum of \$3,500.00 be appropriated and raised for Surveying and Testing for additional water.

Report of Fire Truck Committee

Article in Warrant:

To see what sum the town would raise and appropriate to buy a New Fire Truck.

Action taken by the vote of the people:

They appointed a committee of five men (Alton Joudrey, Philip T. J. Cote, Leopold Paulin, Ernest O. Sullivan and Leo E. Ray) to buy said Fire Truck, the amount not to exceed \$15,000.00. The amount to be raised by the Selectmen of the Town by floating a bond for said amount to pay cash for the truck, the bond to be paid back at the amount of \$3,000.00 per year for five years.

Action taken by Fire Committee:

About the first of April the Committee looked over an American-LaFrance truck here at Gorham. The second Sunday of April, we went to Middleboro, Mass. to go through the Maxim Factory to look at the Maxim Trucks and Fire Equipment. The third Sunday of April we were taken to Marchester and Concord to look at Mack Equipment. After a great deal of consideration of all trucks examined we voted to buy a Maxim, which was more the type that the town needed and by so doing we could keep within the appropriation raised by the town.

This Truck is Model 2405-Q-Quadruple. In other words it carries 246 feet of ladders of all types, has a pumper which will produce 500 gals. per minute, has two 150 feet booster hose reels equiped with Fogg nozzles, will carry 500 to 1000 feet of 2½ inch hose, will have a two-way Deluge Fire Gun, Flood light equipment and many other extras which the town of Gorham needed in many ways.

This truck was to be delivered in Nov. 1947 but due to shortages of steel and brass fittings said truck had to be held up until March of this year for delivery.

The Committee has put in a great deal of time to get what they figured was best for the town. We feel that this truck will serve the people of the town in many more ways than the other types we could buy. Even with the delivery

date in March, we are still much better off than with some other dealers who set their delivery date for two years after the order was signed.
